

Aegis SkyAssure

BVLOS EVIDENCE

BVLOS Evidence Package

Part 107 waiver §107.31: BVLOS corridor patrol (fictional)

Authorization CMA-BVLOS-26-01, version v1

Cobalt Mesa Aerial Inspection (fictional)

Scope	September 2026 BVLOS operations, CMA-BVLOS-26-01: 36 flights included, 0 excluded
Period	1 Sep 2026 to 30 Sep 2026
Revision	2, supersedes revision 1 (package ...b7b9d3d0)
Sealed	2026-10-08 20:23 UTC
Prepared for	Cobalt Mesa Aerial Inspection (fictional)
Prepared by	Aegis SkyAssure, Aegis Technologies Inc.

CONFIDENTIAL. This package holds the operator's flight, crew and evidence records.

Prepared for Cobalt Mesa Aerial Inspection (fictional). Contains proprietary methodology of Aegis Technologies Inc.; licensed for the recipient's internal use only. Not to be reproduced, shared outside the recipient's organisation, used to train or prompt AI systems, or used to develop competing products.

Package ...859afa4b · hash **sha256:f15ccf0451706bd0...** · checking it: see section 8

This package records how configured requirements were evaluated against the evidence available to Aegis SkyAssure, and the decisions people in the organization recorded. It is not a determination of legal or regulatory compliance, which remains the responsibility of the operator and the relevant authority.

Contents

REPORT			APPENDICES		
1	Summary	2	A	Scope	14
2	Requirement results	3	B	Requirement matrix	15
3	Altitude against the ceiling	3	C	Evaluations	16
4	Flights by day	5	D	Evidence manifest	46
5	Crew and fleet currency	6	E	Findings, full ids	49

Provisional results

144 / 144

interpretation not approved at seal

Watch

Where the problems are: 3 flights with medical expired (CM-4114, CM-4117, CM-4121), 3 with training currency lapsed (CM-4103, CM-4110, CM-4119) and 1 with altitude limit exceeded (CM-4112).

Authorization CMA-BVLOS-26-01, version v1 (01a11d2f-4f07-7a64-b8dc-504ed2a72a79)
Period 1 Sep 2026 to 30 Sep 2026
Population 36 flights included, 0 excluded (appendix A)

1.1 What changed since revision 1

Revision 1

sealed 8 Oct 2026
sha256:3d057870...

→

Revision 2

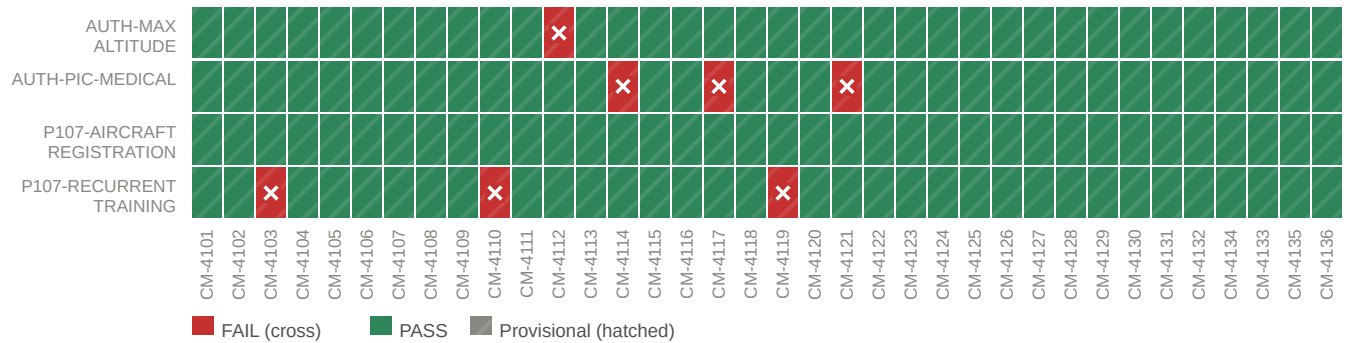

sealed 8 Oct 2026
sha256:f15ccf04...

CM-4131 AUTH-MAX-ALTITUDE: INDETERMINATE → PASS
6 reviewer decisions recorded since revision 1

Why: CM-4131 telemetry recovered from the held log card after the incident review; reviewer decisions of 1 October recorded

2. Requirement results

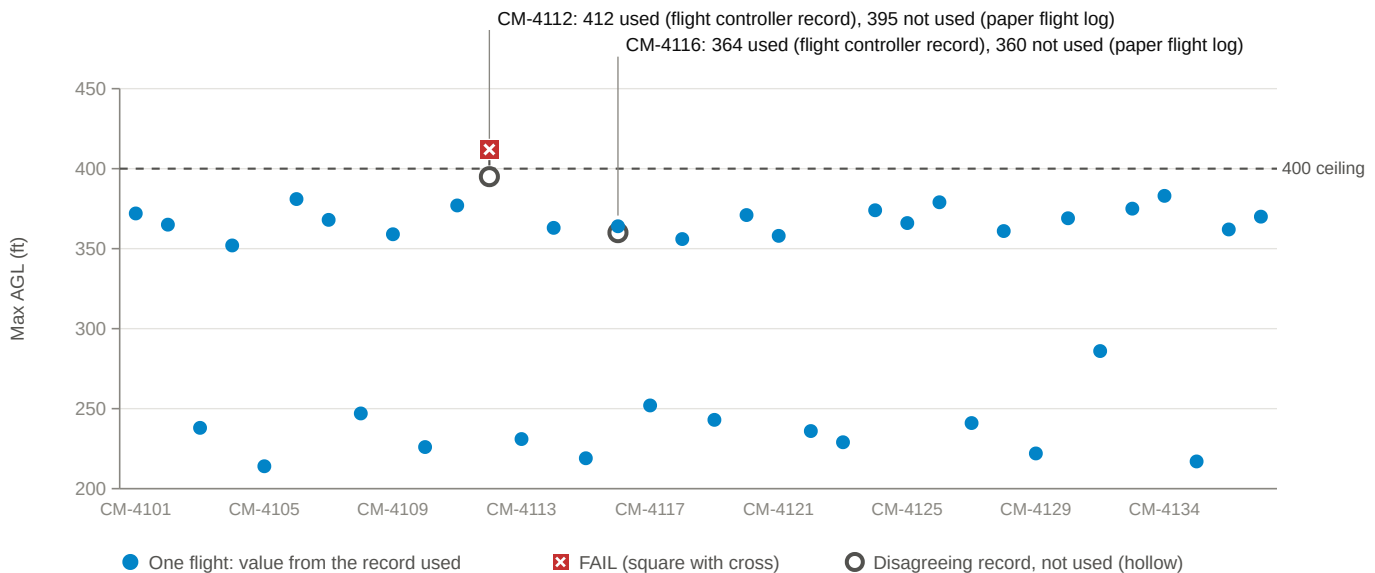

Each cell is one flight against one requirement, as evaluated against the evidence in this package.
The text matrix is in appendix B.

Colour and mark show how the records compared with each requirement; they are not a determination of compliance.

137 PASS, 7 FAIL, 0 INDETERMINATE, 0 NOT_APPLICABLE; 144 of 144 provisional (hatched). FAIL: CM-4112 AUTH-MAX-ALTITUDE; CM-4114 AUTH-PIC-MEDICAL; CM-4117 AUTH-PIC-MEDICAL; CM-4121 AUTH-PIC-MEDICAL; CM-4103 P107-RECURRENT-TRAINING; CM-4110 P107-RECURRENT-TRAINING; CM-4119 P107-RECURRENT-TRAINING.

3. Altitude against the ceiling

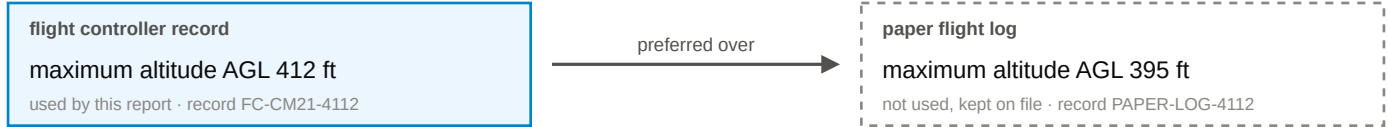

Dashed line: the altitude limit in your authorization. Each flight's value is from the record the report used.

Above the ceiling of 400: CM-4112 (412). Source conflicts: CM-4112 412 (flight controller record, used) vs 395 (paper flight log, not used); CM-4116 364 (flight controller record, used) vs 360 (paper flight log, not used).

3.1 Source conflicts

Where two of your records of the same flight disagree, this report uses the one your documented source priority (configured with Aegis) puts first. Both records stay on file.

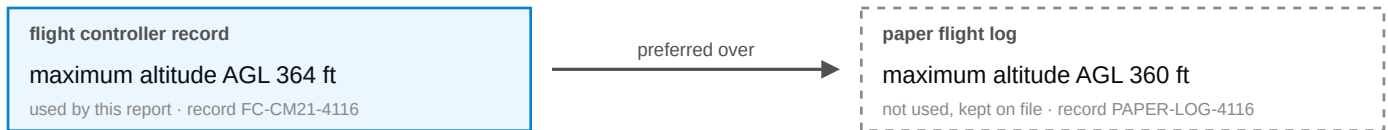

CM-4112 · AUTH-MAX-ALTITUDE · telemetry summary

Your records disagree. The report used the flight controller record, following your documented source priority (configured with Aegis).
Result: FAIL. Both records stay on file; only the one used was compared with the requirement.

CM-4112: the flight controller record (maximum altitude AGL 412 ft) and the paper flight log (maximum altitude AGL 395 ft) disagree. The report used the flight controller record, following your documented source priority (configured with Aegis).

CM-4116 · AUTH-MAX-ALTITUDE · telemetry summary

Your records disagree. The report used the flight controller record, following your documented source priority (configured with Aegis).
Result: PASS. Both records stay on file; only the one used was compared with the requirement.

CM-4116: the flight controller record (maximum altitude AGL 364 ft) and the paper flight log (maximum altitude AGL 360 ft) disagree. The report used the flight controller record, following your documented source priority (configured with Aegis).

4. Flights by day

September 2026

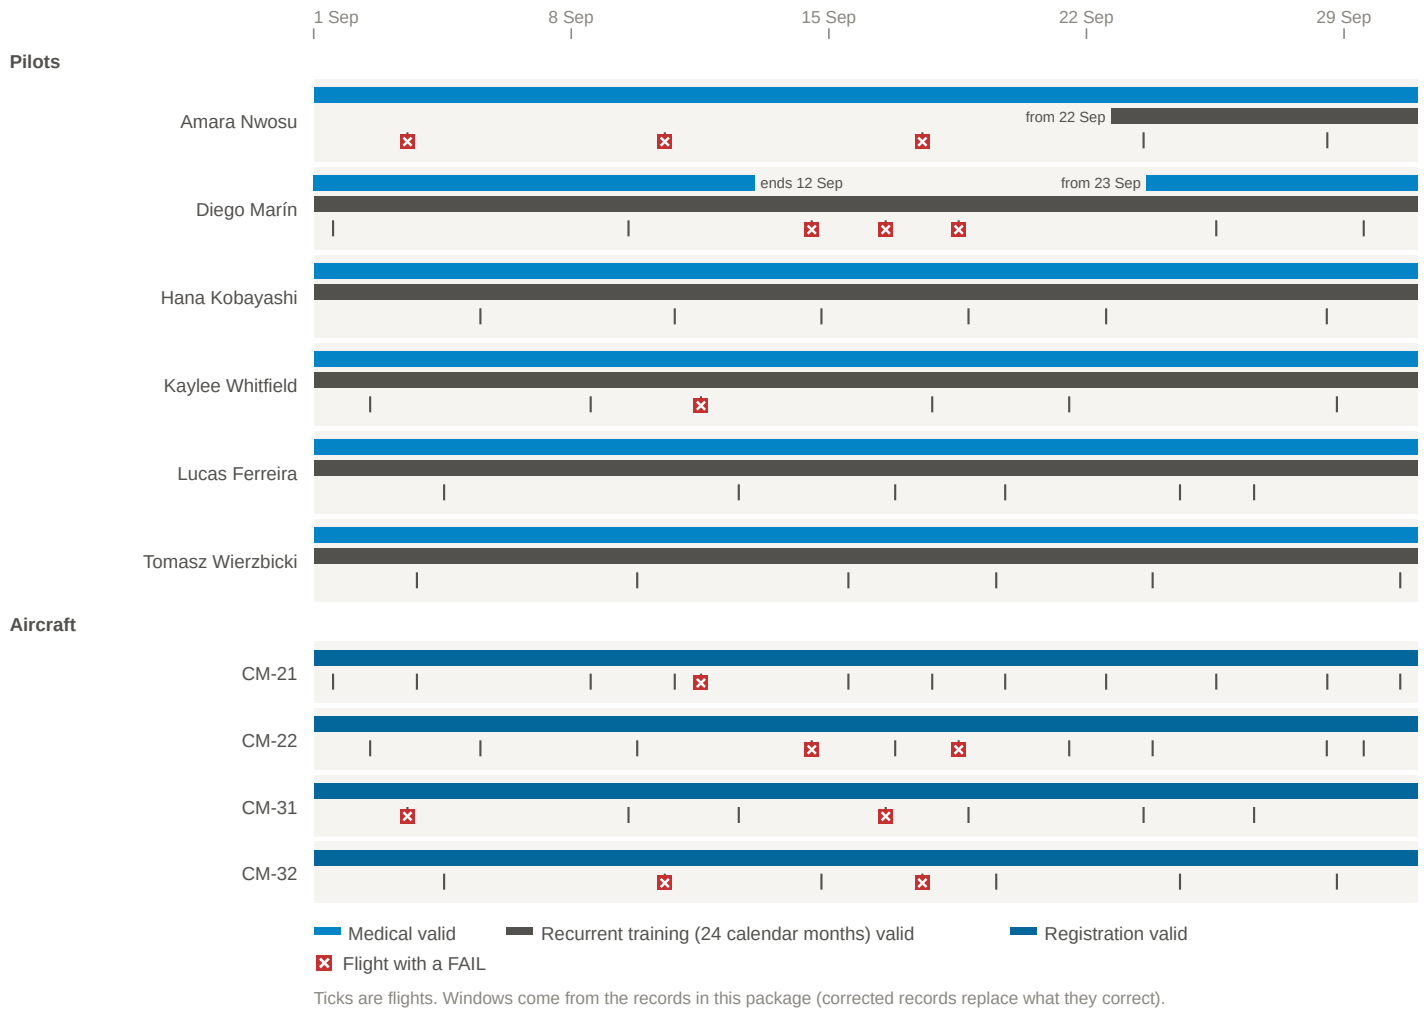

Mon	Tue	Wed	Thu	Fri	Sat	Sun
	1 ● CM-4101	2 ● CM-4102	3 ✖ CM-4103 ● CM-4104	4 ● CM-4105	5 ● CM-4106	6
7	8 ● CM-4107	9 ● CM-4108 ● CM-4109	10 ✖ CM-4110 ● CM-4111	11 ✖ CM-4112	12 ● CM-4113	13
14 ✖ CM-4114 ● CM-4115	15 ● CM-4116	16 ✖ CM-4117 ● CM-4118	17 ✖ CM-4119 ● CM-4120	18 ✖ CM-4121 ● CM-4122	19 ● CM-4123 ● CM-4124	20

28 ● CM-4132 ● CM-4134 ● CM-4133	29 ● CM-4135	30 ● CM-4136				

✖ Flight with a FAIL ● Every requirement PASS

36 flights on 25 of 30 days. CM-4103 (3 Sep, FAIL), CM-4110 (10 Sep, FAIL), CM-4112 (11 Sep, FAIL), CM-4114 (14 Sep, FAIL), CM-4117 (16 Sep, FAIL), CM-4119 (17 Sep, FAIL), CM-4121 (18 Sep, FAIL).

5. Crew and fleet currency

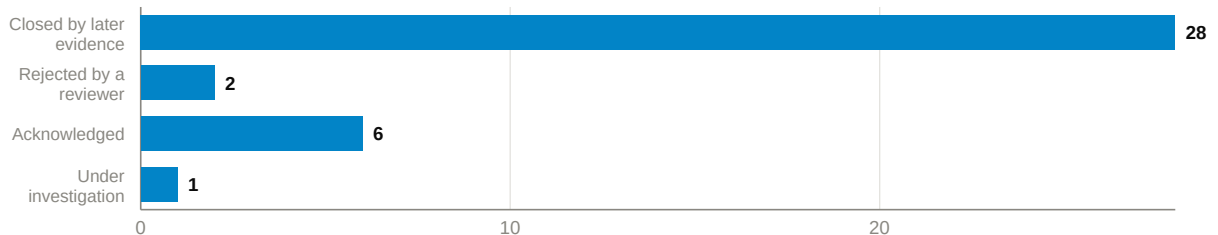

When each pilot's medical and recurrent training, and each aircraft's registration, were valid across the period, with the flights flown.

Changes inside the period: Amara Nwosu recurrent training from 22 Sep 2026; Diego Marín medical ends 12 Sep 2026; Diego Marín medical from 23 Sep 2026.

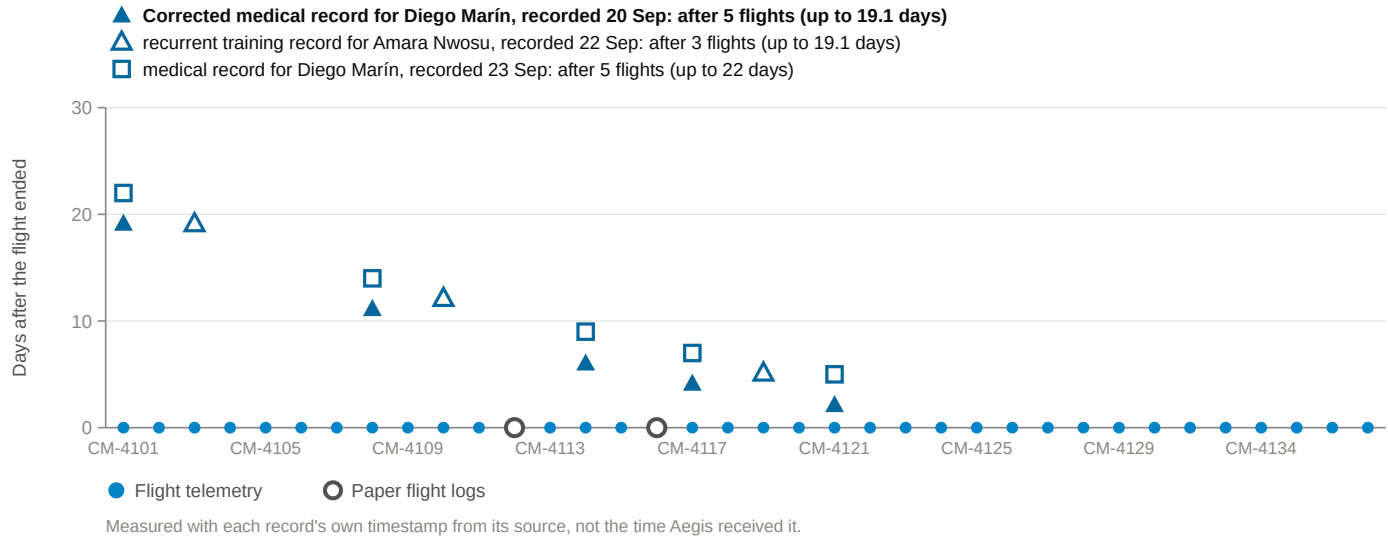

6. Findings and reviewer decisions

37 findings opened on the results in this package. Where each one is now:

37 findings opened. Closed by later evidence: 28; Rejected by a reviewer: 2; Acknowledged: 6; Under investigation: 1.

6.1 When evidence arrived

Flight telemetry: 36 record(s), all recorded by the end of their flight. Paper flight logs: 2 record(s), all recorded by the end of their flight. Recorded after their flights: corrected medical record for Diego Marín recorded 20 Sep 2026, after CM-4101, CM-4108, CM-4114, CM-4117, CM-4121; recurrent training record for Amara Nwosu recorded 22 Sep 2026, after CM-4103, CM-4110, CM-4119; medical record for Diego Marín recorded 23 Sep 2026, after CM-4101, CM-4108, CM-4114, CM-4117, CM-4121.

6.2 Findings

Finding ids are shortened to their last 8 characters: the first characters of a time-ordered id are the same for findings opened in the same minute. Appendix E lists them in full.

7. Requirements checked

The requirements each flight was checked against, where they come from, and whether a qualified reviewer has approved how each one is read.

Requirement	What it requires	Source	Interpretation review
AUTH-MAX-ALTITUDE	Recorded maximum altitude within the authorization's altitude limit	In force	Qualified review pending
AUTH-PIC-MEDICAL	Remote PIC medical certificate valid for the whole operation	In force	Qualified review pending
P107-AIRCRAFT-REGISTRATION	Aircraft registration active for the whole operation	In force	Qualified review pending
P107-RECURRENT-TRAINING	Remote pilot knowledge training completed within the previous 24 calendar months	In force	Qualified review pending

8. Integrity: how to check this package

The bottom row is written into the bundle when it is exported. This report is one of the files it lists, so it cannot print the bundle's own signature.

Package	01a11d2f-7d21-7f08-91e1-da05859afa4b, revision 2
Supersedes	01a11d2f-754a-72da-af21-df7eb7b9d3d0 (sha256:3d05787005ee04d6fa68f1733b7ea7750f94c687eecb16d33a307f375f816ab): CM-4131 telemetry recovered from the held log card after the incident review; reviewer decisions of 1 October recorded
Sealed	2026-10-08T20:23:33.860Z by 01a11d2f-2513-7285-bfc9-1087ad3bcc16; snapshot taken 2026-10-08T20:23:33.860Z
Package hash	sha256:f15ccf0451706bd0a072d3c0b14f883368fa5621981d4a58a12fdc0ec0618f9c
Contents	57 records, 144 results, 37 findings, 40 reviewer decisions

8.1 How to check

1. Files: the bundle this report ships in lists every file with its SHA-256 in SHA256SUMS. Check them with any SHA-256 tool, for example `sha256sum -c SHA256SUMS` (Linux) or `shasum -a 256 -c SHA256SUMS` (macOS).
2. Signature: `MANIFEST.json` holds the same list, signed by Aegis Technologies Inc., signing key `ed25519:1c8fefa2a5154f2f`.
3. The sealed record: Aegis Technologies Inc. keeps the sealed package behind the hash above. On request, Aegis confirms the signature and that this package matches its sealed record, and re-checks every result.

Appendices

The records behind the report: A. scope; B. requirement matrix; C. evaluations; D. evidence manifest; E. findings, full ids.

Appendix C. Evaluations

For each result: what was required (from the requirement and your authorization), what your records show and which record it came from, and the outcome.

CM-4106 · AUTH-MAX-ALTITUDE · PASS

Recorded maximum altitude within the authorization's altitude limit. Evaluation 01a11d2f-6042-77a1-94bb-94a80190e1c3, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Maximum recorded altitude AGL does not exceed the authorized limit: CMA-BVLOS-26-01 sets 400 ft	maximum altitude AGL 381 ft, flight controller record FC-CM22-4106	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4106 · AUTH-PIC-MEDICAL · PASS

Remote PIC medical certificate valid for the whole operation. Evaluation 01a11d2f-605a-74b6-ac66-f185d9089511, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
The medical certificate is active (must be ACTIVE)	status ACTIVE, HR record CMA-RP-106-MED-2026	met
The certificate was issued no later than the operation start (on or before 5 Sep 2026 12:45 UTC)	issued 6 May 2026, HR record CMA-RP-106-MED-2026	met
The certificate does not expire before the operation ends (on or after 5 Sep 2026 14:26 UTC)	expires 31 May 2028, HR record CMA-RP-106-MED-2026	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4106 · P107-AIRCRAFT-REGISTRATION · PASS

CM-4112 · AUTH-MAX-ALTITUDE · FAIL

Recorded maximum altitude within the authorization's altitude limit. Evaluation 01a11d2f-6589-7a51-83fa-9d71b843bb8f, evaluated 2026-10-08 20:23 UTC

Not met: "Maximum recorded altitude AGL does not exceed the authorized limit" does not hold on the records shown.

Required	What the records show	Check
Maximum recorded altitude AGL does not exceed the authorized limit: CMA-BVLOS-26-01 sets 400 ft	maximum altitude AGL 412 ft, flight controller record FC-CM21-4112	not met

Your records disagree: the flight controller record FC-CM21-4112 shows maximum altitude AGL 412 ft; the paper flight log PAPER-LOG-4112 shows maximum altitude AGL 395 ft. This report used the flight controller record FC-CM21-4112, following your documented source priority (configured with Aegis). Every record stays on file.

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4127 · P107-RECURRENT-TRAINING · PASS

Remote pilot knowledge training completed within the previous 24 calendar months. Evaluation 01a11d2f-7467-7925-81b6-0752633bee74, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Training was completed before the operation started (on or before 23 Sep 2026 13:15 UTC)	completed 22 Sep 2026 16:00 UTC, training record CMA-TRN-104-2026-09-22	met
Training was completed within the previous 24 calendar months (on or after 1 Sep 2024)	completed 22 Sep 2026 16:00 UTC, training record CMA-TRN-104-2026-09-22	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4134 · AUTH-MAX-ALTITUDE · PASS

Recorded maximum altitude within the authorization's altitude limit. Evaluation 01a11d2f-7484-7d4e-951e-3c4ac930323e, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Maximum recorded altitude AGL does not exceed the authorized limit: CMA-BVLOS-26-01 sets 400 ft	maximum altitude AGL 383 ft, flight controller record FC-CM21-4134	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4134 · AUTH-PIC-MEDICAL · PASS

Remote PIC medical certificate valid for the whole operation. Evaluation 01a11d2f-748e-7c0c-b2a9-9e25a6722e6d, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
The medical certificate is active (must be ACTIVE)	status ACTIVE, HR record CMA-RP-104-MED-2025	met
The certificate was issued no later than the operation start (on or before 28 Sep 2026 13:05 UTC)	issued 9 Jun 2025, HR record CMA-RP-104-MED-2025	met
The certificate does not expire before the operation ends (on or after 28 Sep 2026 14:42 UTC)	expires 30 Jun 2027, HR record CMA-RP-104-MED-2025	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4134 · P107-AIRCRAFT-REGISTRATION · PASS

Aircraft registration active for the whole operation. Evaluation 01a11d2f-7497-7c01-adcd-f95df500f794, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
The registration status is active (must be ACTIVE)	status ACTIVE, FAA DroneZone registration FA3CMA0021	met
The registration does not expire before the operation ends (on or after 28 Sep 2026 14:42 UTC)	expires 30 Apr 2028, FAA DroneZone registration FA3CMA0021	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4134 · P107-RECURRENT-TRAINING · PASS

Remote pilot knowledge training completed within the previous 24 calendar months. Evaluation 01a11d2f-74a0-77cb-86e3-72158e1f130a, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Training was completed before the operation started (on or before 28 Sep 2026 13:05 UTC)	completed 22 Sep 2026 16:00 UTC, training record CMA-TRN-104-2026-09-22	met
Training was completed within the previous 24 calendar months (on or after 1 Sep 2024)	completed 22 Sep 2026 16:00 UTC, training record CMA-TRN-104-2026-09-22	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4131 · AUTH-MAX-ALTITUDE · PASS

Recorded maximum altitude within the authorization's altitude limit. Evaluation 01a11d2f-79f9-7c9d-b39f-6a6c40fb29fb, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Maximum recorded altitude AGL does not exceed the authorized limit: CMA-BVLOS-26-01 sets 400 ft	maximum altitude AGL 286 ft, flight controller record FC-CM31-4131	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4131 · AUTH-PIC-MEDICAL · PASS

Remote PIC medical certificate valid for the whole operation. Evaluation 01a11d2f-7a0a-7517-920e-249ff1efa55c, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
The medical certificate is active (must be ACTIVE)	status ACTIVE, HR record CMA-RP-105-MED-2025	met
The certificate was issued no later than the operation start (on or before 26 Sep 2026 13:20 UTC)	issued 22 Jan 2025, HR record CMA-RP-105-MED-2025	met
The certificate does not expire before the operation ends (on or after 26 Sep 2026 14:06 UTC)	expires 31 Jan 2027, HR record CMA-RP-105-MED-2025	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4131 · P107-AIRCRAFT-REGISTRATION · PASS

Aircraft registration active for the whole operation. Evaluation 01a11d2f-7a12-7367-b25b-530878acfa08, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
The registration status is active (must be ACTIVE)	status ACTIVE, FAA DroneZone registration FA3CMA0031	met
The registration does not expire before the operation ends (on or after 26 Sep 2026 14:06 UTC)	expires 3 Nov 2027, FAA DroneZone registration FA3CMA0031	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

CM-4131 · P107-RECURRENT-TRAINING · PASS

Remote pilot knowledge training completed within the previous 24 calendar months. Evaluation 01a11d2f-7a1b-7026-bcca-36abb2b321ed, evaluated 2026-10-08 20:23 UTC

Met: every check passed on the records shown.

Required	What the records show	Check
Training was completed before the operation started (on or before 26 Sep 2026 13:20 UTC)	completed 15 Jul 2025 15:45 UTC, training record CMA-TRN-105-2025-07-15	met
Training was completed within the previous 24 calendar months (on or after 1 Sep 2024)	completed 15 Jul 2025 15:45 UTC, training record CMA-TRN-105-2025-07-15	met

Provisional: the interpretation of this requirement had not completed qualified review when the package was sealed.

Appendix D. Evidence manifest

Every record in this package, by your own record id. Under each: its evidence id and the SHA-256 of its content.
